

Everybody's Happy

'It's often best to let your clients do the talking for you" says Jared Kemp of Redkem Constructions, "after all, they are the ones who have had first hand experience of the way your company works."

And certainly, it seems that Jared's clients are a very happy group of people. Redkem concentrates on home renovations, an especially tricky area of the building industry in that the building team and the home owners have to co-exist on a daily basis for a period of time.

As Malcolm and Suzie say: "If you ever need a builder give Jared at RedKem Constructions a call. Firstly, he actually returns your call within 24 hours and does exactly what he says he would. The guys are amazing to work with, nothing we threw at them during construction was ever an issue and they even brought ideas to the table."

Danny and Sylvia were not looking forward to the renovation of their bathroom, but they had this to say: "As much as anyone loathes renovations, it was a pleasant experience from commencement to completion. Jared was always contactable and communicated himself well. He was always on time

and took care to protect or cover other areas of the house which may have had a bit of foot traffic. Tools were always stored out of the way and the guys always cleaned up. Not only was the whole process completed in the time frame stated, but also within the quote as stated. Jared offered great advice to us during the whole renovation. Things that we'd not thought of or hadn't seen before were a great addition to our bathroom."

For Jared, the key to a successful renovation is a combination of offering fixed price contracts, being contactable at all times and being willing to offer flexibility to revise or change your ideas along the way - and of course, respecting your privacy and your home.

Redkem has also been recognised by their peers, taking out the HIA Queensland Region Professional Small Builder/ Renovator award at the 2015 HIA Awards.
